```
graph BT; A["/home/matty/Документы  
/Qt/qt-proj/MattyNotes/addnotedialog.cpp"] --> B["/home/matty/Документы  
/Qt/qt-proj/MattyNotes/utilityfunctions.h"]; C["/home/matty/Документы  
/Qt/qt-proj/MattyNotes/utilityfunctions.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `/home/matty/Документы/Qt/qt-proj/MattyNotes/utilityfunctions.h`. Below it are two white boxes representing source files. The left box is `/home/matty/Документы/Qt/qt-proj/MattyNotes/addnotedialog.cpp` and the right box is `/home/matty/Документы/Qt/qt-proj/MattyNotes/utilityfunctions.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include or depend on the header file.
