

C:/Users/Ogrigorieva  
/QtCreator/MattyNotes  
/utilityfunctions.cpp

```
graph TD; A["C:/Users/Ogrigorieva  
/QtCreator/MattyNotes  
/utilityfunctions.cpp"] --> B["UtilityFunctions.h"]; A --> C["Constants.h"];
```

The diagram illustrates a C++ source file, `utilityfunctions.cpp`, located at the path `C:/Users/Ogrigorieva/QtCreator/MattyNotes/`. Two blue arrows originate from the bottom of the source file box and point to two separate header file boxes below it: `UtilityFunctions.h` on the left and `Constants.h` on the right. This indicates that the source file includes both of these headers.

UtilityFunctions.h

Constants.h
