

C:/Users/Ogrigorieva
/QtCreator/MattyNotes
/noteholder.h

```
graph TD; A["C:/Users/Ogrigorieva  
/QtCreator/MattyNotes  
/noteholder.h"] --> B["QVector"]; A --> C["QWidget"];
```

The diagram illustrates the dependencies of a header file. A central gray box at the top contains the file path 'C:/Users/Ogrigorieva /QtCreator/MattyNotes /noteholder.h'. Two blue arrows point downwards from this box to two separate white boxes below. The left white box is labeled 'QVector' and the right white box is labeled 'QWidget'. This indicates that the 'noteholder.h' file depends on the 'QVector' and 'QWidget' classes from the Qt framework.

QVector

QWidget
